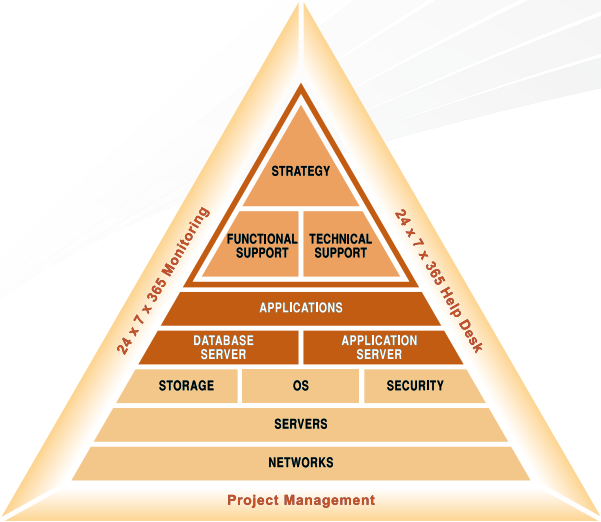
MySQL Database Administration Services

ISS | IT CONVERGENCE Support Services

IT Convergence Support Services (ISS) offers comprehensive managed services for the MySQL database which includes a full range of services, covering installation, backups, performance optimization, and upgrades.



If your organization is seeking MySQL support from a provider that has the ability to work as your strategic partner, ISS has a solution for you:

- **Flexibility:** Reduce your development and maintenance costs, through MySQL's GPL license benefits, and ISS's flexible support model, which is tailored to your needs.

- **Reporting:** ISS provides total visibility into your database by utilizing state-of-the-art monitoring technology to proactively poll systems and database activity.

- **Performance:** ISS knows how to leverage your MySQL environment to secure high availability, API connectors, and data inter-operability among applications and service layers.

Your company can benefit not only from MySQL's improved processing speed, but also from ISS's expertise that allows us to deliver superior feature implementation support in areas such as:

MySQL DATABASE ADMINISTRATION ACTIVITIES

- PROACTIVE DATABASE MANAGEMENT
- BACKUP AND RECOVERY
- PERFORMANCE TUNING
- DATABASE UPGRADES
- CLONING & REFRESH
- SECURITY ADMINISTRATION
- SCHEMA MAINTENANCE
- APPLICATION & DATABASE PATCHING
- STRATEGIC IT PLANNING

COMPUTING PLATFORM FLEXIBILITY

PLUGGABLE STORAGE ENGINE

ISS can help you take advantage of the MySQL database's unique Pluggable Storage Engine Architecture so that your organization can select a purpose-built storage engine which is optimized for specific application domains, including OLTP, Read-Intensive Web Scale-out, High-Availability Clustering, Data Archiving, and Data Warehousing.

Achieve better database performance by relying on ISS's Pluggable Storage Engine Architecture configuration services, which ISS optimizes for specific application domains.

HOSTING

The IT Convergence Data Center provides predictable Hosting Services and reliable Managed Network Solutions for critical data systems. ISS tailors solutions that house server architectures and provide the connectivity needed to continuously link people to important data. This service simultaneously simplifies IT infrastructure management while providing you with a cost-effective solution in a reliable, safe, and secure environment.

A COMPLETE MANAGED SOLUTION

If you are looking for a partner to support your entire IT infrastructure, ISS has a solution for your organization. Our wealth of resources allows us to provide you with hosting and co-location services, along with 24 x 7 x 365 monitoring, technology stack management, and functional application support.
